

Paul's Poster Puzzle

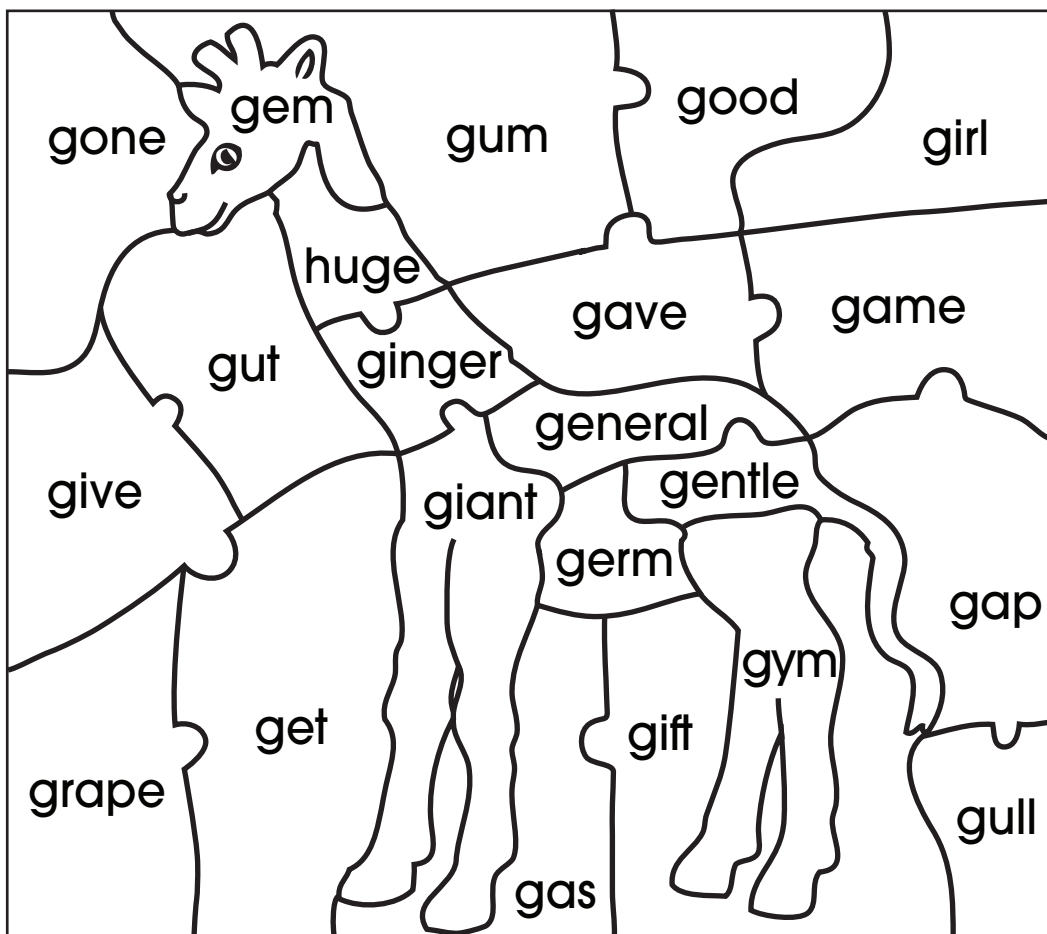

Paul the Gorilla may not speak, but his posters say a lot.

Help him finish his latest poster. Look at this picture. Say its name out loud.

Find all the words in which the "g" sounds the way it does in the word "germs." Shade in those spaces to see something with the same sound in its name. The picture you see will finish Paul's riddle at the bottom of the page.

What is worse than a walrus with a toothache?

A _____ with a sore throat.
