

The Missing Species Game

Names of Group members:

1. _____

2. _____

Missing species: _____

3. _____

4. _____

In the box below, write a summary from your group on what would happen if your species was no longer in the ecosystem. The guiding questions that your group needs to address are:

- What role does your species play in the ecosystem?
- What animals were directly and indirectly affected?
- What role does the species play for human needs? Is there another species that could be substituted for this product?
- Describe some things that you could do to ensure your species remains in your local ecosystem.

--

List important ideas that other groups in your class offered for their species:
