**KQED’s The Lowdown: Why Are So Many Central Americans Seeking Asylum in the US? A Graphic Explainer**

**Above the Noise: How Does the U.S. Asylum Process Work?**

Opening quick write prompt:

What would it take for you to leave your home and seek asylum or protection in another country? What would have to be happening in this country? How would you feel about being forced to leave?

*A quick write allows students to write down their thoughts before discussing the opening question in order to increase participation and make the discussion more accessible to English Language Learners.*

**Objective**

- Students will analyze the origins and history of why so many people are seeking asylum in the United States from Central America.

- Students will compare/contrast the reasons why people are seeking asylum today vs. why they sought asylum earlier in the 20th century when U.S. asylum law was drafted.

**Key vocabulary**

*Pre-teach key vocabulary before students do the activity, especially if you have English Language Learners. After going over the simple definition, consider providing a visual aid or having students draw one. More ideas for how to pre-teach vocabulary can be found [here](#).*

**Direct instruction and guided practice**

- Define asylum using the definition above to make sure students are starting from a common understanding.

- Discuss the quick-write prompt to help students think about the process of leaving your home country and traveling to another country to seek asylum.

- If students need more information about the asylum process in the United States, watch the Above the Noise video, which gives a brief background and history.

  - **Transition to independent practice:** Ask students to share what they learned about the asylum process in the video and explain that they will learn more about the origins of why so many Central Americans are seeking asylum.

**Independent practice**

- Individually or in small groups, students read The Lowdown post, especially the graphic at the bottom of the post.

**Assessment/Reflection**

- As a class, students respond to the following questions in a discussion or in writing:
  - What is the origins of the serious gang problem in the Northern Triangle of Central America?
  - What role did the United States government play in causing the gang problem? What role do the governments of the Northern Triangle countries play?
Do you think fear of gang violence should be grounds for being granted asylum in the United States? Why or why not?
How should the United States government treat asylum seekers from any nation, in your opinion?

*Circle chats, small-group discussions and think-pair-share provide a safer space for students to practice speaking and listening, and also boost participation during whole-class discussions.*

**Extension/Homework**

Students make their voices heard on this issue by contacting their local representatives. For a list of how to contact local officials in your area, check out [KQED Learning’s Local Election Toolkit](#).
