

A large, stylized pencil graphic in blue and orange, angled from the top left towards the center of the page.

WELCOME!

In March of this year, everything changed. We watched in awe as you transitioned teaching from your classroom to your living room, almost overnight. PBS stations around the country also sprung into action, scouring all available resources to support your instruction: some stations changed their programming schedules to adopt “learning blocks,” others provided daily activities and support, while others offered instruction over the air.

Since that first week in mid-March, we have continued our conversations with teachers and have been thinking deeply about what we can do to support your teaching practice. From those conversations, these planning kits were born. They connect closely with the support we’re offering to parents and families, making the most of PBS LearningMedia (all free!), and reflecting the hard fact that not all of your students have internet access.

We know each teacher has their own unique circumstances and needs. We hope these planning kits will help you navigate this year’s new school routines. Like you, we are figuring out the “new normal” in real time. We are actively seeking feedback about how we can improve this resource or any of our available resources. We want to hear from you. Please do not hesitate to tell us what you think: what works, and what you would change—we’re learning together.

Good luck this year. We know many of you are several weeks in already. Above all, please be safe. Grab moments for self care whenever you can. We are with you.

Love from your friends at PBS

Teacher Planning Kits for New School Routines

Planning Checklist

We will be distributing five kits (including this one) throughout the school year, approximately once every eight weeks. **Here are a few basic things to help make the most out of this resource.**

Check your email

As a PBS LearningMedia registered user, you will receive an email with the latest planning kit approximately every eight weeks. To make sure you're registered, sign up [here](#).

Mark your calendar

Each planning kit is supported by a webinar where peers from around the country will share how they're using the latest kit to plan instruction. Join us! Webinars will be held at 7pm ET, on the following dates:

- September 17, 2020
- November 12, 2020
- January 14, 2021
- March 11, 2021
- May 6, 2021

Watch, Teach, Explore

The kits are intended to help you plan your lessons up to eight weeks ahead of time, based on themes and content relevant to what you're teaching in your classroom. To increase accessibility, many of these resources are connected to broadcast content for students without internet access, and some of the content is available in Spanish. **NOTE: Some of the broadcast content airs outside of school hours. To use this content, we recommend you share the details about how to view it after school hours with students and their parents.**

Where possible, we have also included media that can be viewed online anytime, whether you're teaching in person or virtually.

Our planning sheets are divided into three sections: Watch, Teach, Explore. The "Watch" category includes broadcast and/or online media. The "Teach" category connects activities, games and lessons directly to the featured media. Finally, the "Explore" section should lead you to additional resources that can help you plan a more comprehensive lesson on that particular topic or theme.

Sign in to PBS LearningMedia and visit regularly

The kits, along with links to much of the content, can be found in the [PBS LearningMedia](#) collection called [Resources for New School Routines](#). Also, the more you become familiar with PBS LearningMedia, the more resources and tools you'll find and use.

Check in with your local PBS station

PBS Stations around the country offer endless resources for educators and parents. This [google doc](#) highlights these resources including several upcoming webinars for teachers of all grades and subjects.

Share with parents

The Planning Kits connect directly with [dozens of resources for parents](#), including our weekly ["Learn Along" Bingo](#) packets for PreK-K and Grades 1-2 which are available in English and in Spanish. We encourage you to share these resources and the Bingo with the parents and families of your students.

Find more PBS and PBS KIDS resources

PBS KIDS and PBS are thrilled to be able to provide thousands of free resources to support new school routines, and at home learning.

- [PBS KIDS website](#): Thousands of videos, games and activities for kids featuring their favorite shows and characters.
- [PBS KIDS for Parents](#): Tips, fun activities and resources for parents and families.
- [PBS Teachers' Lounge](#): Blog site designed to inspire your teaching.
- [PBS Learning Media](#): Thousands of free, standards aligned lessons and teaching tools.

Watch the webinar

If you missed the welcome webinar, please find it [here](#). It is full of helpful hints and fun ideas about how to use the featured content.

Tell us what you think

We are learning and building WITH you. We would love to hear your [feedback](#) about these kits, or any of the other available resources. Please feel free to email us with questions and comments: what's working for you, and what can be improved.

What's in the Planning Kit?

You can count on these four sections to be included in all five of the planning kits distributed throughout the year.

Special Lessons and Collections

Each kit includes featured lessons or collections designed to provide additional support around timely topics you're likely covering in your classes. For example, in this kit, you'll find a feature section dedicated to teaching elections and civic participation. This is the first section of the kit.

Planning Sheet: PreK-5

This is a plan-ahead guide for PreK-5 educators. It includes the weekly "Learn Along" Bingo packet for PreK-K and Grades 1-2, and connects to a variety of resources developed for teachers and parents of children PreK-5. The broadcast content connects to the PBS KIDS 24/7 channel, available on most cable and streaming services like Apple TV, Roku, and Amazon Fire. You can also stream directly from the [PBS KIDS Video app](#). You can find the entire [PBS KIDS 24/7 broadcast schedule](#) here if you're interested in planning lessons around PBS KIDS shows.

Planning Sheet: 6-12

This is the special plan-ahead guide for 6-12 educators. The broadcast content connects to the WORLD channel At-Home Learning block, which offers five hours of programming for students, grades 6-12, every weekday ([full schedule here](#)). [Check with your local station](#) to find out where and when to watch.

Relevant Professional Learning

Each kit will include links to existing or upcoming professional learning opportunities that are related to the featured content. These may be short tutorials, webinars or webinar series, self-paced courses or blog posts. In this first kit, all the highlighted professional learning relates to how to use PBS LearningMedia, or ideas and tips for remote teaching.

2020 Election and Civic Participation

Below you'll find a one-stop-shop to help you teach your students about voting and civic participation, no matter their age. Don't miss our [PBS Electoral Decoder](#), which allows students to learn more about the electoral college and predict the outcome of the 2020 election. Share your predictions among your class, in your school and with classrooms across the country—a great way to build excitement and understanding about the upcoming election.

Best For	Type	Description
PreK-K	Videos	Daniel Tiger's Neighborhood explains how voting works , shows students how adults vote when they are at the voting booth, and how voting can make a difference .
PreK-2	Videos	Students can watch ARTHUR, The Election the week of October 26 on pbskids.org and discover how to overcome obstacles in order to take civic action for causes they care about.
3-8	Video	A short video explaining the importance of midterm elections and how they can impact a sitting president with discussion questions and vocabulary to share with your students.
6-12	Collection	Above the Noise: Elections & Civics dives into debates over policy and the role of government in our lives.
6-12	Collection	Discover PBS LearningMedia Election Central , our comprehensive election collection that includes election news, the history and process of presidential elections, voting rights resources, and prompts for classroom debates.
6-12	Collection	16 for '16: The Contenders : From Shirley Chisholm to Howard Dean, examine the most compelling and influential presidential campaigns from the past 50 years.
6-12	Collection	We the Voters is a nonpartisan digital project featuring short films to activate voters across the country. Use these videos to provide a fresh, engaging perspective on democracy, elections, governance and debating.
7-12	Video and Collection	Unladylike 2020 honors the centennial of women's suffrage. The full collection features video shorts about dozens of women, including Martha Hughes Cannon , Charlotta Spears Bass and Jeannette Rankin , who all played pivotal roles in our U.S. Government.

2020 Election & Civic Participation

Best For	Type	Description
9-12	Collection	Educators can use America From Scratch (and its discussion guides) to engage the most important issues of the day, and to encourage critical thinking and promote civic engagement with their students
9-12	Collection	Explore some of the complex issues, court rulings and personalities that are shaping U.S. democracy in the Frontline Election Resource Collection .
9-12	Collection	POV's lesson plans offer rigorous entry-points to the study of civic duty and elections. And She Could Be Next , a 2-part documentary from POV, questions whether democracy can be preserved and profiles the women warriors who are on the frontlines of American politics.
K-12	Collection & pbs.org resources	Vote Democracy engages students in discussions about democracy abroad , elections, third-party politics , gender , the role of dissent in democracy and media literacy.
K-12	Collection	The U.S. Presidency explores the rich history and the institution of the U.S. Presidency—from George Washington to Barack Obama.
Educators	Blog Post	This blog post highlights the true story of the Women's Suffrage Movement , and challenges educators to reimagine how they teach this topic.
Educators	Blog Post	Engaging Students in the Elections dives into the Youth Media Challenge: Let's Talk About Election 2020 , a classroom project that challenges students to make media, share with peers across the country and take on issues that are important to them.
Educators	Blog Post	Discover how one U.S. Government teacher engaged his class in the 2016 election- in an "Age of Hate," Part I & Part II .

Educator Planning Sheet: Elementary

This plan-ahead guide for PreK-5 educators helps you plan lessons around a variety of themes over the next eight weeks. It connects to our [Learn Along Bingo](#) packets, available in English and Spanish, which include printable activities should your students not have internet access. The broadcast content outlined here connects to the PBS KIDS 24/7 channel, available on most cable and streaming services like Apple TV, Roku, and Amazon Fire. You can also stream directly from the [PBS KIDS Video app](#), and many of the full episodes will be available on demand during the broadcast window. You can find the entire [PBS KIDS 24/7 broadcast schedule](#) here if you're interested in planning lessons around other PBS KIDS shows.

WEEK CONTENT GRADES WATCH TEACH EXPLORE

SEPT 21 Weather	Science	PreK-K	<p>Broadcast: PEEP AND THE BIG WIDE WORLD, Stormy Weather Tuesday, 9/22, 7:30AM ET</p> <p>Online: PEEP AND THE BIG WIDE WORLD, Stormy Weather</p>	<p>Explore stormy weather with PEEP, as well as other weather phenomena. Collections include activities for students and teaching tips for educators.</p>	<p>Are your students obsessed with severe weather? This collection explores blizzards, floods, thunder and wind. You'll find a fun cloud activity here, and Sesame Street weather tracker here.</p> <p>For younger students who shudder at thunder, turn to none other than Daniel Tiger for a song, and additional lessons.</p> <p>Finally, click here to learn more about PEEP and the Big Wide World's professional learning opportunities for educators of young children.</p>
	Science	1-2	<p>Broadcast: ODD SQUAD, Not So Splash, Tuesday, 9/22 1:30PM ET</p> <p>Online: ODD SQUAD, Not so Splash</p>	<p>In addition to a comprehensive "what is weather" lesson plan, find the entire Odd Squad Collection here, including classroom activities.</p>	<p>This Wild Kratts activity will help your students learn to read a thermometer and compare temperatures using basic math skills.</p> <p>Also, check out this fun activity to make a bottle thermometer.</p>
	Science	3-5	<p>Online: Scientist Profile: Meteorologist</p>	<p>Kid Meteorologist: In this adapted video segment from ZOOM, one student describes how her interest in observing the weather led her to volunteer at a local weather center where she gains hands-on experience with weather instruments and learns from a practicing meteorologist how weather forecasts are made. Follow up with background reading and discussion questions.</p>	<p>This lesson plan uses weather data to develop an understanding that weather patterns vary seasonally and at different locations.</p> <p>Your students will love saving the fidgets from flood, in this fun Design Squad game which can be played in teams or as individuals.</p>

Let's Build

Math

PreK-K

Broadcast:
THE CAT IN THE HAT KNOWS A LOT ABOUT THAT, Termite Towers, Tuesday, 10/6, 11AM ET

Online:
THE CAT IN THE HAT, [Secret of a Good Tower](#) (video clip)

In addition to watching the short clip, students can play the [Sketch-a-Mite Game](#) where they can build their own termite tower!

Termites are industrious: [here](#) your students will learn more about the structural integrity of a termite nest. They can then test their own building skills with Ruff Ruffman and [this tower building activity](#) which explores structural science. And don't forget to measure those towers with [this great lesson plan](#) to help teach young learners how to measure.

Looking for a great activity your student can share with a parent or family member? Why not suggest they [build a worm hole](#) with the Wild Kratts?

Science

1-2

Broadcast:
READY JET GO!, Sean's Robotic Arm, Tuesday, 10/6, 12:30PM ET

Online:
READY JET GO!, [Sean's Robotic Arm](#)

In this [activity](#) from Ready Jet Go!, your students will use their engineering know-how to build a robotic arm with help from Jet.

Let the Cat in the Hat lead your students through the Engineering Design Process, as you challenge them to use their "building brains" to design some amazing creations in this collaborative [Daring Design Challenge](#).

Science

3-5

Online:
[What Is the Engineering Design Process?](#)

Watch your students become global designers in just six weeks, using the Design Squad's [6-Week DSG Club Guide](#). This guide takes you through the process of running a 6-week version of the club, which includes a welcome session, 4 hands-on activity sessions, and a party to celebrate at the end as well as optional bonus activities.

Explore the possibility of ['what if engineering disappeared for a day?'](#) with [background reading](#) for teachers and discussion questions for students.
